Let me introduce myself, Gery Audia Simanullang, I graduated from the Telkom University campus with a D3 major in Information Systems. In this field I learned many things ranging from programming, business & how to solve problems. I have one year of internship experience at PT Sagara Technology with the division as a Frontend Developer, here I worked on a project to create an IT Certification website display using the React JS programming language and there are still other projects. Not only that, I also have experience in the world of online gaming business, for example selling account purchases and including account ranking jockeys, as well as the business of helping students complete assignments. I have a career interest in the world of technology with the aim of creating something new and useful for the people around me.

TELKOM UNIVERSITY
D3 SISTEM INFORMASI (IPK 3.07)
